Hanley Centennial Hall Report

New Dishwasher

There has been a little difficulty with the operation of the dishwasher. The most important difference between this machine and the old sanitizer is that you must turn the dishwasher on **20 minutes** before you wish to use it to give it time to heat up. Also you must pull up the drain plug for the dishwasher to drain. This is a silver cylinder on the right hand side. Please follow the **directions** posted on the **cupboard above the dishwasher**.

All of the buttons have been labelled according to the numbers on the direction sheet. Thanks to Dale Bagnall for assisting those new to the operation of the machine.

Dishes Left at Hall

Residents who have donated food to functions and have not picked up their dishes, are encouraged to do so. Included in the collection are two crock pots, a stock pot, a chrome dutch oven, quite an assortment of cake and pie plates. They have been placed on a table in the foyer and may be picked up any time Monday to Friday during the day. Any dishes left after September 15, 2009, will be packed away as it is kind of difficult explaining to the health inspector why the dishes are in the furnace room when food is not supposed to be brought into the hall!

Fire Inspection

The dept. of Health and Safety did a recent inspection. The following deficiencies were identified: exit signage, need downspout extensions and/or splash blocks, filters in grill must be removed and replaced with an approved brand of filter. The Board will address these issues this fall.

NEW MEMBERS WELCOME

Hanley Composite High School Culture Club 2010 Students For Hire

We recognize that the community has been very generous in the past years with supporting the culture club and we are very thankful for all your help. This year we will not be going door to door asking for support. We feel though that the students have become valued as a service provider and we will be continuing with that in the form of being available for farm auctions, weddings, working the booth at our curling and hockey rinks and other duties as required. In the past, the main source of money raised for trips was made through bingos, however, due to the recent changes of policies, these are not a viable option for the group at this time. The students would like to let everyone in the community to be aware that they are ready and willing to do odd jobs in the area, this can include things such as shovelling snow, painting fences, washing floors, spring cleaning, fixing corrals, pulling weeds, etc. If you are interested in hiring a group, a pair, or just one student for your job please contact Kim Dietz at 544-2263 (keldie@sasktel.net) or Colleen Troesch at 492-2153, 241-5883 (fivesmoothstones@sasktel.net).
